

## **ENG 101: COLLEGE WRITING I**

General Education

Required Core A—English Composition

Pre-requisite: Passing score on the CAT-W, equivalent or waiver

### **COURSE DESCRIPTION**

Practice in expository and analytical writing through reading and research-based assignments in varied academic formats such as reports, formal essays and research papers, making use of appropriate technology for composing, editing and sharing documents. Practice in conventions of academic reading and writing including clear and coherent use of standard English, use of digital libraries, and methods of ethical attribution and citation.

### **REQUIRED CORE AREA LEARNING OUTCOMES A ENGLISH COMPOSITION**

Students will:

1. Read and listen critically and analytically, including identifying an argument's major assumptions and assertions and evaluating its supporting evidence.
2. Write clearly and coherently in varied, academic formats (such as formal essays, research papers, and reports) using standard English and appropriate technology to critique and improve one's own and others' texts.
3. Demonstrate research skills using appropriate technology, including gathering, evaluating, and synthesizing primary and secondary sources.
4. Support a thesis with well-reasoned arguments, and communicate persuasively across a variety of contexts, purposes, audiences, and media.
5. Formulate original ideas and relate them to the ideas of others by employing the conventions of ethical attribution and citation.

*This course will address all Learning Outcomes.*

### **REQUIRED TEXTS AND READINGS**

This is a Zero Textbook Cost (ZTC) course. The required textbook and all required readings will be provided free of charge through the course site. For example, the Purdue Online Writing Laboratory (OWL) will be referenced for information on APA Style Citation and the CUNY Information Literacy Tutorials for an introduction to academic research online.

### **ASSIGNMENTS**

Final grades will be based on the following types of assignments:

#### *Finished Essays: 70%*

Finished, formal writing projects (1000-1,500 words) will be the result of a scaffolded, or staged, process in which students will be guided to read and annotate required reading selections, and prepare notes and outlines. All projects will go through a drafting and revising process. *Addresses all LOs.*

### Low-Stakes Writing: 20%

Low-stakes assignments will assist students as they work on the four major assignments for the course. These ten assignments will also help students increase their writing fluency and bolster their writerly self-confidence. Students will engage in rehearsal activities such as brainstorming, planning, drafting, and reflection—all of which are directly related to and part of the writing process. *Addresses all LOs.*

### Discussion Boards: 10%

Class Discussion will provide opportunities for students to increase their understanding of concepts and issues arising from the assigned readings and essay assignments by engaging each other while putting those concepts into practice. These include utilizing criteria for rhetorical modes, quoting, summarizing and paraphrasing without plagiarizing, etc. It will also provide opportunities for the practice of relatively informal academic discourse using standard English. Throughout the semester students will complete ten Discussion Board assignments. *Addresses LOs 1, 2, 4, 5.*
